TANZTENDENZ MÜNCHEN E.V.

Workshop and training course studios for rent

BY ARTISTS, FOR ARTISTS – FOR NEARLY 40 YEARS

1987 In 1987, five Munich-based choreographers founded the first association of independent dance professionals in Germany with the support of the City of Munich's Department of Culture: **Tanztendenz München e.V.**

Their goal was to improve production conditions for independent contemporary choreographers. Today, supported by 24 members, **Tanztendenz** has become much more than a studio collective. It is a place where art is created based on artistic principles: from within, with a long-term perspective and a flexible approach to the specific needs of the artists.

PHYSICAL INFRASTRUCTURE AS AN ARTISTIC RESOURCE

There are two spacious, light-filled studios with sprung floors, projectors and functional lighting technology, as well as a jointly organised office. **Tanztendenz**, located in Munich's Lindwurmhof, is a rehearsal centre for contemporary dance in a centrally located Art Nouveau building.

The rooms are unique in terms of their size, facilities and artistic approach, and are also open to external users for training courses, workshops or research formats, provided they are compatible with the institution's artistic profile and values.
